

Joining the Saddleback AP European History Wikispace 2011-2012*

1. Create an email address. If you already have an email account, skip this step and go to step #2.

- Go to www.yahoo.com, or www.google.com (gmail), or some other email server of your choice.
- Find the “free mail” or “create an account” dialog box or link, and go for it.
- You will need to remember your password.

2. Join Wikispaces

- Go to www.wikispaces.com
- Click on this:

• Username

- In the first blank, type your: last name_first initial (or your first name)
 - For example, Gregory_S
- If your username is already taken, try adding a one digit number at the end, perhaps add another underscore if necessary, until the username comes up as available.
- No first names! This is a cyber safety issue. And on your study pages, or in our online discussions, you are not to refer to each other by first name.
- You can only test availability if you also type in a password. Make this something you will remember!

• The next page

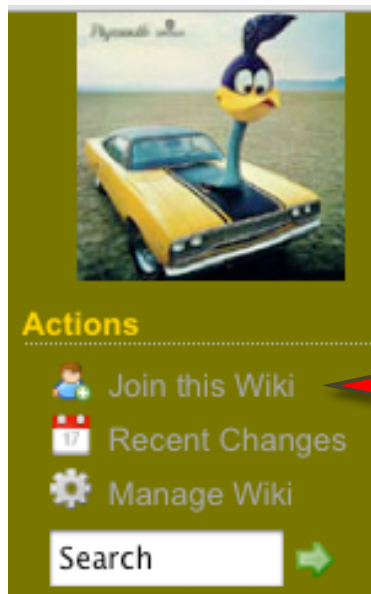

- If you hit “join” and are successful, you will see this:
- Congratulations on completing part one.
- *If at any point it asks you about making a “wiki”, say “NO” for now.*

Make a Wiki?
☐ Yes ☒ No
Create a wiki now or after you join.

3. Join the saddleback AP European History wikispace

- Go to www.roadrunner-apeh.wikispaces.com
- In the upper left hand portion of the page, there is a link “Join this wiki”. Click it!
- In the comment box, identify yourself and hit the “request membership” button.
- I will then either accept or reject your request. If I reject it, don’t take it personally; it just means you did not follow all the directions correctly. Look back through them and try again.

See you in wikispaces soon!

**This class wikispace is “protected”. This means anyone can view the pages, but only members can edit them.*
